EXCLUSIVE FLOWER SEED GROWERS

SANTA MARIA

U. S. A.

CALIFORNIA

The William Macdonald Seed Co.

For the Seed Trade

It is a pleasure to again mail you our advance Contract list on Flower Seeds—for delivery after 1950 harvest.

This handy booklet describes and prices the many Flower Seed items we are growing this year. There has been a good spot demand for "fill in" items this spring. Inventories apparently are being acrried at a minimum and this is certainly healthy for the Trade. If you will take an hour off now and figure your tentative new crop requirements, it will pay you dividends in the Fall, by giving you earlier deliveries and protection against any possible shortages.

Mechanization and increased efficiency of farming operations reflect additional savings for you in this 1950 catalog. California's dry summers enable us to produce seed of highest germinating qualities. Modern cleaning methods give you a better seed sample. Fast, direct transportation gets the order to you quicker—within 12 hours by air! We need your business and feel that these are important points for you to consider.

We cordially invite all members of the Seed Trade to visit our Flower Seed fields when they are in full bloom—usually anytime between June and the end of August, with Sweet Peas and perennials coming earlier in April. If you are driving, we are on the main coast highway 101—otherwise Southwest Airways stop here four times daily.

We want to take this opportunity to thank you our many customers and friends, for your nice business during the past season. We will strive to give you even better service on your 1950 Crop Flower Seed Orders.

The Macdonalds

Santa Maria, California

Terms and Conditions of Delivery

All seeds are offered F.O.B. Santa Maria, California, for delivery from 1950 crop as soon as possible after harvest. Invoices to firms of established credit are subject to a discount of 2% for cash in 30 days from invoice date, or 60 days net. New customers should furnish two credit references if shipment is desired on an open account basis. Otherwise delivery will be made C.O.D. All foreign invoices are payable in U. S. Dollars at the current rate of exchange. All overdue accounts are subject to a sight draft without further notice.

Speedy Air Parcel Post and Air Express service can have your rush orders delivered 24 hours after we receive them. Southwest Airways Inc. makes four daily stops in Santa Maria. Air Mail from all major cities usually arrives here the day after posting. We ship Air Mail orders the same day received.

Definite shipping instructions should accompany each order placed, and will be carefully followed by our Shipping Department. In the event instructions are not received, shipments will be forwarded over the most direct and cheapest route. Delivery to the common carrier in good condition will terminate our responsibility.

Prices quoted in this catalog apply against all 1950 crop purchases, and are effective immediately on all spot orders. We reserve the right to change these prices at anytime without giving further notice. We are Wholesale Growers and supply the Seed Trade only.

Bags and containers will be charged at net cost. All orders for four ounces or more will be charged at the pound rate.

We will plant sufficient land to produce the quantity of seed ordered under normal conditions; however, crop failure or any other cause beyond our control releases us from delivery and in the event of shortages, we will fill contract orders on a pro-rata basis only.

We give no warranty, express or implied, as to the productiveness of any seed we sell and will not be in any way responsible for the crop. Our liability in all instances, is limited to the purchase price of the seed.

The William Macdonald Seed Co.

SWEET PEA WINTER or EARLY FLOWERING SPENCER (HAC)

Wonderful new varieties are now available for outdoor planting in this popular Sweet Pea class. The newer sorts all feature extra strong growth, long stems and large flowers—with many being duplexed. Winter Sweet Peas bloom at least two weeks earlier than other types and have the same flowering period. This is the only type that can be used for Christmas flowering—either under glass or outdoors where climate permits. Let us send you trial samples for your garden or greenhouse.

SWEET PEA SPENCER SPRING FLOWERING CUTHBERTSON TYPE (HAC)

This is an intermediate flowering group and best for late spring bloom where some heat resistance is required. They are especially well adapted for growing in mid-western states. Vigorous growth and large flowered. Blooming in the spring two weeks after the Winter Spencers and ten days before the Summer Spencer sorts.

FIFTEEN BEST SUMMER FLOWERING SWEET PEAS

These include the best varieties in each color class. Many are quite similar in color to older sorts still being listed, but greatly improve them in vigor, stem length, size and form of flower. If you have limited catalog space and want to offer the best, these are the varieties to list.

Avon, clean mid blue
Bonny Briar, rose pink
Capri, light blue
Flagship, deep lavender
Flora, deep lavender
Golden Dragon, orange
Leader, salmon pink

Loch Lomond, mahogany
Mrs. Robert Bolton, pink
Patricia Unwin, golden salmon
Piper, rose cerise
Red Rover, deep crimson
Snow White, white
Sweet Afton, silver pink

Welcome, scarlet

Santa Maria, California

SWEET PEA SUMMER or LATE FLOWERING SPENCER VARIETIES (HAC)

Many outstanding Sweet Pea novelties have been introduced in recent years. All of those we are listing received awards in the English and Scottish trials where this class of Sweet Pea is most popular. Also included is a complete listing of the regular standard varieties, with most of the old inferior sorts being eliminated. Please refer to page 42 for a complete color classification of Summer Flowering Sweet Peas. If we are not listing the variety you want, an equally good substitute can be found in the same color group there. Sweet Peas are a specialty item with Macdonald, over 150 acres being devoted to their culture.

PANSY (Viola Tricolor Hortensis) (HA 6 in.)			
For the past seven years, we have had under direct production in the Pacific-Northwest especially fine strains of all the better Pansies. Again this year we can offer you this same group of quality varieties, which are grown for us by a Pansy Specialist. We find the size and colorings of these Pansy varieties to be unequalled. Limited quantities of seed will be available in July—larger amounts thereafter as the season advances.

------------------	------------------

STOCK GIANTS OF CALIFORNIA (HA 36 in.)

For the commercial cut flower grower, Macdonald's Giants of California varieties are the best Stocks available. This superb branching type produces immense spikes of two inch florets, and average a high per cent of doubles. One mammoth spike per plant can be produced, when transplanted four to six inches apart in beds.

3032	Golden Gate (Macdonald), yellow.....	1.60	20.00

Pansy Super Swiss Giants.
Petunia Grandiflora Types.
Poppy Iceland Gartford Giants.
Salpiglossis Dwarf Sorts.
Stock Giants of California.
Verbena Grandiflora Colors.

The William Macdonald Seed Co.

COLOR CLASSIFICATION

In addition to our regular four acre Sweet Pea Trial Ground, we recently conducted a series of color tests on every Sweet Pea variety that is offered for sale. An especially outstanding variety in each color group is indicated by two stars (★★). Those with one star (★) are highly recommended and will give fine results. All recommended varieties are vigorous growers, and will produce immense flowers on long stems.
